<b>SUMMARY</b>	<b>Procedure for replacement of Fuel</b>
----------------	--

There has been the issue of not having fuel when on patrol. This is due to the appropriate people not advising the IRB Captains that there is no more Fuel.

The following equipment requires fuel

- IRB – Red containers
- ATV – Yellow Container

Please ensure that the correct fuel is used with the right equipment.

In regards to notifying about low fuel, please leave a note in the patrol log book and ring either the IRB Captain or the Club Captain

IRB Captain – Brock Maher 0421 172 949

Club Captain – Lachlan Pritchard 0402 543 918

It is important that you notify the IRB Captain as no fuel can be purchased on Sundays therefore if there is no fuel we cannot operate our vital rescue equipment

If you have any questions or issues please do not hesitate to contact me.

Kind Regards

Brock Maher  
IRB Captain
